At the request of the Air and Waste Management Division, I attempted to conduct a RCRA compliance evaluation inspection at Occidental Chemical Corporation, 6200 South Ridge Road, Wichita, Kansas, 67215 on October 27, 2015. I arrived at the facility at 9:51 a.m. and met with Lisa Thurman (Environmental Engineer) and Nancy Thimmesch (Environmental Superintendent). I presented Ms. Thurman with my EPA credentials and explained the purpose and procedures of the inspection (RCRA inspection authority, collection of accurate information, and confidentiality rights). Ms. Thurman stated that the Kansas Department of Health and Environment had conducted a RCRA compliance evaluation inspection at the facility on September 16, 2015. From my review of the KDHE Notice of Compliance document, it appeared that the facility was inspected for RCRA compliance on September 16, 2015. No violations were identified at the time of the KDHE inspection. At 10:26 a.m., I spoke with Elizabeth Koesterer (EPA RCRA Compliance Officer) and it was decided that the EPA would not conduct a RCRA compliance evaluation inspection at the facility.
